

OFFER

Connect&Sell

Sell your 3D printer or additive manufacturing equipment under €10,000 with full control – and the right visibility.

Looking to sell a second-hand industrial 3D printer or metal additive manufacturing machine with a resale value under €10,000?

Multistation Second Life has a streamlined, low-cost offer designed for professionals who want results — without the complexity.

What's included for €380 (excl. VAT) :

- Your machine listed on our website (Second-Life section)
- Featured in our targeted newsletter sent to qualified industrial buyers
- Promotion across our professional network and LinkedIn community

You stay in control.

We connect you with potential buyers, but you handle negotiations and complete the sale directly.

Need help with transport, storage, or packaging? We offer optional logistics support on request with a personalized quote.

Why choose Connect&Sell?

- Targeted exposure to our international buyer network
- No commission on the final sale – keep 100% of the price
- Fixed, transparent pricing – only €380
- Optional logistics support (pickup, packaging, etc.)
- Benefit from Multistation's reputation and reach — without giving up control

Whether you're freeing up space or unlocking value from unused equipment, Connect&Sell is the smart way to reach serious buyers — fast, simple, and secure.
